

The background of the central text is a photograph of several models walking on a runway. They are all wearing red, short-sleeved, sequined dresses with black accents. They are also wearing red high-heeled shoes. The runway is dark and reflective, showing the models' legs and shoes. The overall color scheme is red and black.

# Red Carpet Multicultural Fashion Show 2015

## Event Portfolio

B

risbane is fast establishing itself as an up and coming mecca for both fashion and multiculturalism. Despite the richness and variety of culture in Brisbane, we have seen that there is still an invisible barrier between communities preventing all people from coming together. For some people it is simply because they are unsure of how to take the first step.

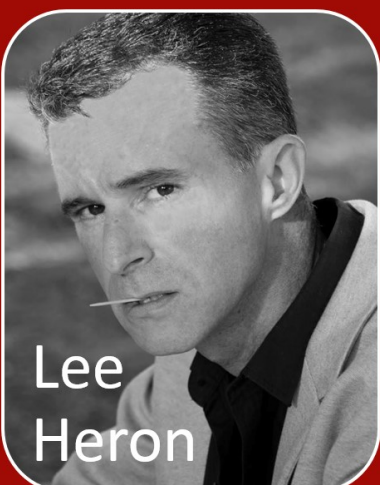

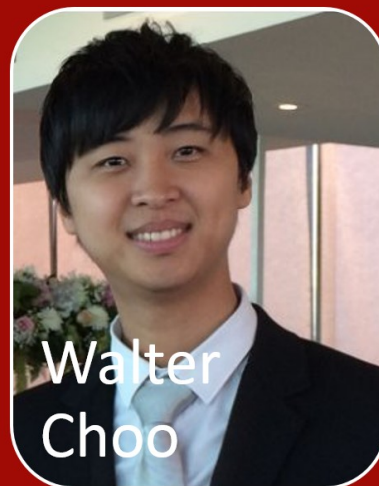

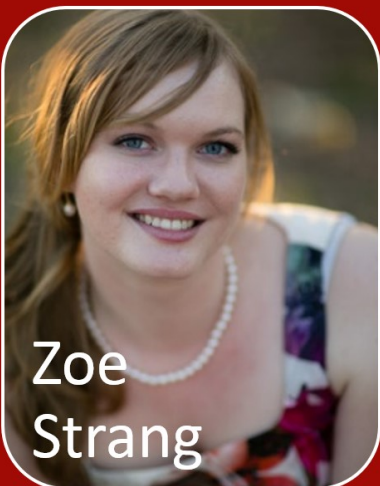

This is why Red Carpet Functions has created a showcase for Brisbane Fashion Designers, Models, Artists and Performers from a wide variety of cultural backgrounds to showcase their creative talents. This platform will allow people to join together in appreciation of each other's beautiful culture and art as well as watch together as the next generation conceives of what it will become.

The inaugural event was one of great success, bringing together over 100 designers, artists, photographers, models and performers from communities all over Brisbane to create the spectacle and attracting a full house of over 360 people. We are proud to say that this event was put together with only the support of many different businesses and communities and within the limited time frame of three months.

Already we are highly anticipating and planning for the Red Carpet Multicultural Fashion Show 2016. Imagine what we could do with more time, more resources and even more support from the community.

Below is a portfolio of the event and the people involved in helping to achieve the outcome and success of the very first Red Carpet Multicultural Fashion Show.
