

# Art Proof + Mockup for approval

## BEFORE APPROVING:

**Please read these notes + review your proof very carefully,  
to ensure *YOUR* project's total success!**

## NOTES:

- We recommend viewing your proof on a large screen, such as a desktop computer. Be aware that different monitors show colors differently. **We do NOT recommend viewing/approving proofs on a smart phone!**
- This multi-page PDF is a rendering of how your finished project will look. We'll show precisely what your **design(s)** will look like, with details specified such as **design size**, exact **colors** specified, design **placement** & any other details you may have requested. **Please review closely to confirm ALL the details mentioned are correct.**
- In most cases, we've shown your design(s) closely to scale, **mocked up on every product style** + color in your order. Product images shown are assumed to be size Large.
- Note this is only a virtual proof and while it *\*should\** look very, very close to how the final product(s) will turn out, be aware that **variables in the process \*may\* result in slight variances in the final result.**

## Pre-production sample available, by request only:

**If you'd like to see a pre-production sample** (AKA the first item we decorate, before we decorate the rest – We can show you “the real thing” for final, FINAL approval!), **please contact us to arrange this extra step.**

- If you have special requests for the **"look & feel"** of your decoration (*some things are impossible to show in a virtual proof!*), again please contact us to discuss a pre-production sample for final approval. **Just ask, we are happy to do this for you as needed. Typically, we will produce one finished item. Extra costs may apply for special requests beyond this.**
- **Color on computer screens can be deceiving.** If you want to be 100% sure of an ink, thread or Pantone/PMS color choice, please contact us to schedule a time to visit our office and see a sample with your own eyes, in person. **Virtually all “surprises” can be avoided by requesting a pre-production sample!**

## To approve your proof:

- 1) Go back to top of the quote page (click “back” button on your browser).
- 2) Simply **click the blue button** @ top of that page
- 3) Enter your name/e-signature + click “Approve”. This notifies us to move forward immediately.

Thank you so much, for reviewing your proofs very, very carefully before approving!

--the Art Team @ Atomic Threads

Decoration type:

**Embroidery**

Placement:

Left Chest

Design size:

2.75"w X 1.52"h

Product color(s):

Various

Colors + sequence:

1. Light Blue - MT1977
2. Navy - MT1742
3. Fresh Pine - MT1650
4. Flower Green - MT1701
5. White - MT1801

Color name - Pantone# - Madeira#/Mesh
