To Whom May Be Concerned:

With Donald Trump at the wheel, what even matters anymore?

The answer, dear **FRIEND**, is PRINTED MATTER!

The best thing about Printed Matter is that Trump would burn it down if he were literate and knew what was inside. To combat this regime, I recommend you immerse yourself in the expressive and provocative words and images stockpiled at Printed Matter.

Book burning, word bans and stifling of the press are all things definitely NOT happening at Printed Matter. Things that ARE happening: good ideas (inside the books), free events and exhibitions (outside the books, inside the bookstore), and an open door for you to walk through anytime and find the new most exciting and perspective-shifting things.

So I made some *Cunt Coasters** and a poster* riffing on an old song that needed some feminist updating (♪ *My Cuntry, 'Tis of Thee* ♪). Join as a Member and get one of these—it's a great way to support the tireless, good-spirited work of Printed Matter.

Love forever (pending your support of Printed Matter),
