Zoning Strategy

R7A

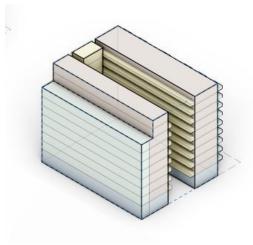

9 stories Setback at 9th floor

"C" shaped + Double loaded corridor results in non uniform layouts

R7D

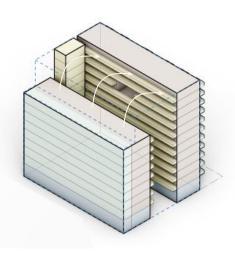

10 stories Setback at 9th + 10th floor

"H" shaped + single loaded corridors configuration allows for multiple exposures of light and air for all units

R7X

Front 9 stories Back 12 stories

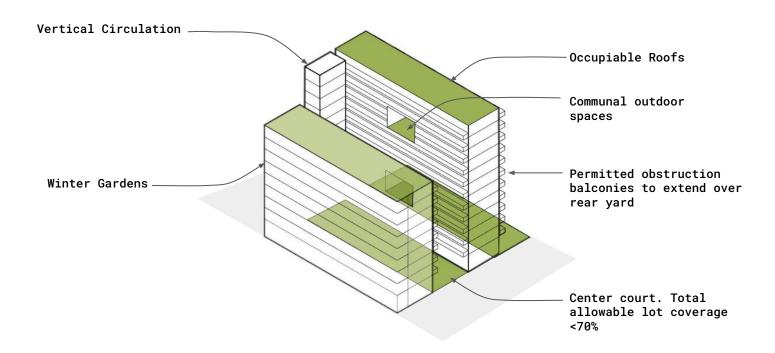

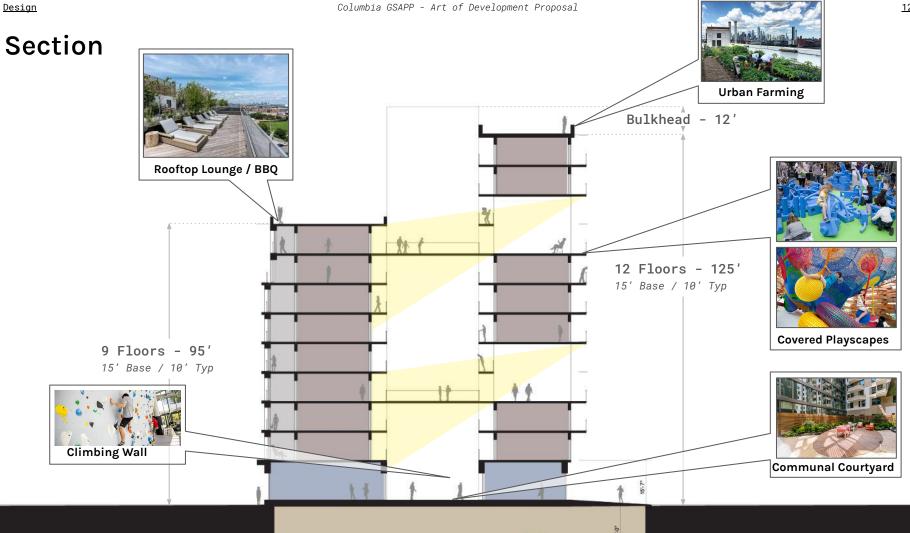

Relocating setback floors to back building maintains similar ZFA as R7D while reducing visible building height and creates uniform units throughout
