

WHAT IS THE AP RACE LONDON INTERNATIONAL?

The AP Race London International is one of the Europe's most premium high-level swimming competitions, with the first edition of the event in 2023 being a huge success we are thrilled to be back in the Olympic year to deliver an even bigger and better event!

This event will draw international and domestic athletes to compete against each other in the most iconic aquatics centre in the world. From Olympic Champions all the way down to our innovative "Grassroots Finals" this event is the only of its kind in the UK.

This competition will also be World Aquatics sanctioned; it is endorsed and licensed to the highest possible standard. This allows athletes to use our competition as an Olympic qualifying opportunity so long as their National Federation states so in their selection policy. For many others, it will be one of their final racing opportunities just 8 weeks out from the Olympic Games.

WHAT IS AP RACE?

AP Race is brand built by three-time Olympic Champion Adam Peaty OBE. We aim to use the power and magic of sport to provide unique and exciting opportunities and experiences. Our goal is to completely revolutionise competitive swimming in the UK.

From our signature "AP Race Clinics tour" where swimmers get to spend a whole day being coached by Adam and his team while we tour the country, to our online educational platform AP Race Plus which provides any swimmer anywhere in the world with World Class guidance, AP Race is redefining what is classed as the norm in the swimming world.

The AP Race London International is our highest-level competition opportunity, and we are extremely proud to have partnered with John Bailey as the Event Director for this meet. Having produced over 60 major Aquatic Events across the globe over the last decade, including Olympic Games, World, European and domestic Championships, John is the most experienced producer of aquatic events in the world.

WHAT MAKES THIS EVENT SO SPECIAL?

As this project is built by former and current swimmers, combined with experienced international Event Producers to deliver an incredible level of production, we are spearheading a unique experience in this iconic venue that others cannot replicate. Our philosophy with this competition is to target three key goals;

- Athlete experience
- Spectator experience; and
- Grassroot sport inspiration.

This is the only open international swimming event in the UK to have an allocated VIP section and an alcohol license that will be held throughout the venue during the competition.

GRASSROOTS FINALS

We are really proud and excited to be able to host our "Grassroots Final". The London Aquatics Centre supports four different swimming clubs from the local area, and we are excited to provide a selection of swimmers from these clubs with an incredible legacy experience that they will forever remember.

We will host eight races (a 50-meter race of each stroke for boys and girls) that are integrated into the Super Finals session during the competition. These swimmers will be nominated by their swimming clubs (20 swimmers per club) to have a shoulder-to-shoulder experience with the highest level of athletes.

All grassroots swimmers taking part will receive a medal presented to them by the most successful senior swimmer in their respective stroke and also two free tickets for the whole event. This addition is all in the ambition to leave a lasting legacy from the AP Race London International.
