GSAPP CONVERSATIONS PODCAST

Faculty **Lola Ben-Alon** hosts a series of conversations on natural and living building materials with designers, builders, and product developers using clay, bamboo, fibers, and bacterial concrete

In kicking off the Natural Materials miniseries, **Lola Ben-Alon**, Assistant Professor of Architectural Technology, speaks with East Coast-based architect [Sigi Koko](#) about building naturally with earthen materials like clay as part of an architectural practice. Koko's work displays amazing ways that earthen materials behave in the dramatically different climates of the United States, and how architects and builders could benefit from incorporating these earthen materials in their work. This conversation is the first in a four-part miniseries on how experimenting with and utilizing natural materials is changing the future of architecture and design pedagogy.

CAREER SERVICES

November 24, 9am

Virtual

Hart Howerton Fellowship Program

Career Services Information Session

Tuesday, December 1 from noon to 1:30pm EST

Join an information session hosted by Matthew Henry from Hart Howerton about the 2021 Hart Howerton Fellowship Program.

Now in its fifteenth year, the Fellowship provides students with an opportunity to enrich their education with both research and office experience. Named by *Architectural Digest* as one of the Fellowship programs paving the way for the future of architecture, the Hart Howerton Fellowship is available to undergraduate and graduate students in planning, architecture, landscape architecture, or urban design who will be entering their final year of study in September 2021.

Register now through Engage (located under Events).

Visit [Hart Howerton](#) for full details.

P.S. **Sarah Zamler** '21 MArch was their 2020 Fellow!

[More info](#)

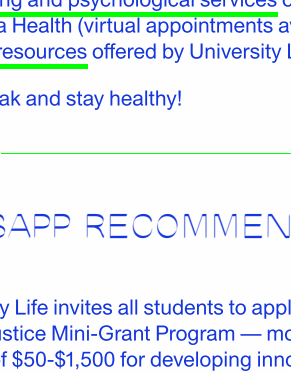

Registration for Tuesday Talks tomorrow, November 24, is now available at the [link here](#).

We encourage students to view these informational interviews as opportunities to learn more about the professional life of the alumni mentor, receive feedback on job-seeking materials, and expand one's alumni and industry network.

If you would like to connect with a past alumni participant, please send a request to gsappalumni@columbia.edu for assistance. You may review the lists of past Tuesday Talks mentors [here](#).

CHECKING IN FROM SHANGHAI

"This fall, I've been researching several historic structures in Shanghai, and doing a lot of street walks here, taking shots of architectural materials to hand in for my building technology class."

Read more about MSHP student **Ziming Wang's** remote studying experience in Shanghai in [Columbia News](#).

You can also watch a "day in the life" vlog by MSHP student **Luxi Yang**, who is also studying at the Columbia Global Center's WeWork space in Shanghai, on the [GSAPP Instagram feed](#).

As Thanksgiving break approaches, we want to thank everyone for continuing to keep [Columbia Community Health Compact](#). Here are some additional resources and tips for staying safe over the holiday:

- [How to Combat Rising COVID-19 Rates and Campus Health Resources](#), a recent message from the Office of University Life
- [GSAPP COVID-19 resource guide](#)
- [Columbia COVID-19 resource guide](#)
- [Counseling and psychological services](#) offered by Columbia Health (virtual appointments available)
- [Student resources](#) offered by University Life

Enjoy the break and stay healthy!
