

“Getting Hired”

Yale School of Architecture Career Services

18-Feb-2019

Robert Mc Clure AIA, EYP

EYP/

- What are your long term goals?

- This question may seem obvious but you need to think about this to determine what types of firms you pursue.

- Why hire recent graduates?

- Bring new original ideas
 - Open to ideas
 - Energy
 - Cost

- What do we look for?...someone worth the investment

- Design, design, design
 - Ability to work in a team
 - Presentation/communication ability
 - Organized, clear, and critical thinking
 - Suitable to represent the firm
 - Skill set (technology)

•Process:

Portfolio preparation

- Image
- Organization
- Who is your audience
- Flexible format
- Simple unhampered presentation

Resume

- Objectives
- Education
- Experience
- Skills
- Interest
- Graphic presentation
- Work examples
- Remember to think about how your materials are viewed
(i.e. format of page and how it might be printed)

- Choosing firms that are right for you:
 - Examine your interests
 - Examine your goals
 - Establish your strengths and weaknesses relative to your goals
- Find out who is hiring
 - Economic considerations
 - Regional Considerations
- Send out resumes
- Make phone calls and follow-up
- Set up interviews
 - Punctuality
 - Grooming

•The Interview:

- Know the firm
- Know who is actually interviewing you (if possible)
- Be prepared to ask poignant and relevant questions
- Know how to get to the interview and give yourself enough time to regroup prior to the interview once you arrive.
- Prepare some good stories about your experiences at school, work, organizations you have been involved with.
- Do not review every project in your portfolio but choose a few that you are especially proud of or relevant to the work the firm does.
- Know what is out there about you on the internet (social media etc.)

- Making the choice-matching “chemistry”:

- Cultural considerations

- Size...small or large firm
 - Design, production or both
 - Office/Studio atmosphere

- Career opportunities

- Office structure/hierarchy
 - Room for growth/advancement

- Salary and Benefits

- Do your research on salary and benefits and negotiate within current market parameters

Hierarchy of credentials

Education

EDUCATION 2008-present_ **Yale School of Architecture** Master of Architecture
2006_ **Knowlton School of Architecture_ The Ohio State University** Bachelor of Science in Architecture

Experience

EXPERIENCE 2010 summer_ **C-Studio (New Haven, CT):** Summer Intern
designer assisting with pre-design and design documentation
2009 ongoing_ **Constructs (YSOA News Publication):** Student Editor
aided with copy editing and layout
co-wrote building project article and Ecotechnics studio summary
2009 summer_ **High and Low: Projects from Eisenman Architects:** Intern/Fabricator
(Exhibition at the Brooks School Lehman Art Center)
constructed 15' x 18' sculpture for exhibition per the architect's design
2006-2008_ **NBBJ Design (Columbus, OH: www.nbbj.com/):** Junior Architect
designer assisting with client relations and product approval
contributed to conceptual ideation for a multitude of projects
coordinated construction administration issues with consultants
extensive detailing and production of project documents (all design phases)
2011 spring_ **Yale University Department of the History of Art:** Teaching Fellow
History of Western Art from the Renaissance to the 20th Century
2010 fall_ **Yale University School of Architecture:** Teaching Fellow
First Year M Arch I Studio
2010 spring_ **Yale University School of Architecture:** Teaching Assistant
Visualization II
2009 fall_ **Yale University Department of the History of Art:** Teaching Fellow
Contemporary Hollywood: Art & Industry

Skills

SKILLS Rhino, Grasshopper, Microstation Triforma, Sketch Up, Revit, Adobe Suite, Adobe Premiere, Laser Cutter, CNC Shopbot, 3-D Printing, Plasma Cutter, AutoCad, Hand Drafting, Bentley Microstation, Revit

Honors

HONORS 2010_ **Feldman Nomination**
nominee best architectural solution
Alejandro Zaera-Polo Studio
2010 present_ **Yale University Graduate Professional Student Senate**
elected Senator, representative for the Yale School of Architecture
2010_ **Rome Study Abroad Seminar**
participant/awarded Yale travel grant
2009-10_ **Yale School of Architecture Rules Committee**
elected position, M Arch I class of 2011
2009-10_ **Retrospecta Selection**
Yale annual journal of student work
2006_ **Fourth Year Honors Studio Project and Thesis**
granted honorable distinction academic merit-based award
2006_ **JAMES GUI Honorable Mention Award**
fourth year studio competition
2005_ **Italy Study Abroad Program**
participant/awarded OSU travel grant
10 week long program, trips to Rome, Naples, Ascoli Piceno and Genova

Exhibitions and Publications

EXHIBITIONS/ PUBLICATIONS 2010_ **Exhibition with Gage/Clemenceau at Roger Williams University**
dunescape, 40" x 60" CNC roboted Walnut panel
2010_ **Digital Media Exhibit at Yale School of Architecture**
dunescape
forthcoming_ **Edward Bass Visiting Fellowship in Architecture, Volume 5**
Yale School of Architecture, ed. Nina Rappaport, New York: Norton

EDUCATION

Yale School of Architecture

May 2010
Master of Architecture degree candidate.

Parsons School of Design

Summer 2005
Intensive program in Architecture

Skidmore College

May 2004
Bachelor of Science in Studio Art

Cooper Union for the Advancement of Science and Art

Fall 1999
Architecture Major

Cornell University

1998
Intensive program in Architecture

Summer

WORK EXPERIENCE

Renzo Piano Building Workshop, Genoa, Italy

Summer 2009
Part of the design team for the SD master planning for ex-Michelin plant, Trento Italy. DD documentation for the Fogg Art Museum Addition, Cambridge, MA.

Grey Organschi Architecture, New Haven, CT

Spring 2007
Freelance presentation materials for Jesuit community center, Fairfield, CT

MR Architecture + Décor, New York, NY

Summer '07 / '08,
Junior Architect / Project Manager. Overall design, drafting, specifications and CA for luxury New York retail and residential projects. Working directly with clients and firm principal.

Toshiko Mori Architect, New York, NY

10/05 - 02/06
Form studies, drafting and presentation graphics for Jingxiangqingke Housing Project, Beijing, China.

Wank Adams Slavin Associates (WASA), New York, NY

09/04 - 06/05
Junior Draftsman. Drafting full sets of construction documents on a variety of GSA and institutional projects, including site surveys, and cost of work estimates.

Frederick Taylor Associates, White Plains, NY

Summer '03 / '98
Assistant to architect specializing in commercial retail spaces. construction documents, site surveys, graphic work for project proposals, archived project catalogue.

Armand LeGardeur Architect, New York, NY

2001
Assistant to architect specializing in Tudor style manor homes. construction documents, high-detail models and hand-rendered design proposals.

Summer

TEACHING/AWARDS/ EXHIBITIONS

Teaching Assistant, Yale Graduate Seminar: Architecture, Religion, Modernization; lecturer Karla Britton, PhD, Spring 2010
Teaching Assistant, Yale M.E.D. Methods and Research Colloquium; lecturer Karla Britton, PhD, Fall 2009
Teaching Fellow, Yale M. Archi Design Studio, 1st Year; critic Martin Cox, Fall 2008

Winner, Henry R. Luce Foundation Award in Restorative Environmental Design from the Yale School of Forestry, Spring 2007

Artwork exhibited in group show, Espace Communes, Paris, France, May 2004
Artwork exhibited in group show, Case Center Gallery, Saratoga Springs, NY, December 2003
Artwork exhibited in group show, Asterisk Gallery, Brooklyn, NY, October 2003 / October 2002

SKILLS

Expertise in AutoCAD, Rhinoceros, Maya, Adobe Creative Suite, Experience with carpentry, welding and CNC fabrication.
Proficient in French and Italian.

FORMAT ON A SINGLE PAGE

YALE GRAD STUDENT

180 York St, New Have CT 06511 / t: 555.555.5555 / e: yalestudent@gmail.com

EDUCATION

- 8.2009 – Present **Yale University, School of Architecture**, New Haven, CT
Master of Architecture II Candidate 2011 (M.ARCH II)
- 8.2001 – 6.2006 **Cornell University, College of Architecture, Art and Planning**, Ithaca, NY
Bachelor of Architecture (B.Arch), Dean's List
Thesis: DMZOO

WORK EXPERIENCE

- 7.2006 – 7.2009 **Kohn Pedersen Fox Architects**, New York, NY
Junior Architect
New Songdo City Blocks F3-5
Advanced schematic design and design development documents through curtain wall details, building massing studies and 3D modeling. Coordinated structural, mechanical, electrical and plumbing systems with local and foreign consultants. Researched and developed complex enclosure system for double curved walls with curtain wall consultant and KPF computational geometry team.
Busan Haeundae Resort / Lotte Supertower / DMC Landmark Tower
Developed massing studies, plan layouts and physical models for three supertall tower competitions in six-month time frame. Produced project booklets and PowerPoint presentations for official competition submission. Coordinated drawings with overseas model maker and professional renderer.
NSIC Masterplan
Manage and maintain CAD drawings and official project documents for NSIC masterplan and cityscape. Worked directly with developer and landscape architect to refine bike path network and trash inlet system within city boundary.
NSC Green Book
Responsible for editorial content, graphic design and print production of publication documenting the sustainable initiatives of 1500-acre masterplanned city in Incheon, South Korea; over 8000+ copies currently in circulation.
New Songdo City Block D15
Reorganized CAD conventions and digital file standards to accommodate scope and typology of multi-building housing block. Advanced schematic design through exterior wall profile, building volume and site adjacency studies.
New Songdo City Blocks D20 & D21
Streamlined 41% of construction detail drawings for ten buildings on two semi-residential blocks in New Songdo City through the design and implementation of efficient cross-referencing method. Responsible for publishing, outputting and submitting complete design development drawing sets for foreign and local consultants.
- 4.2007 – 2.2008 **Bread Design Group LTD**, New York, NY
Freelance Designer
Assisted interior designer with spatial layout and 3D conceptualization of the Ezra Abraham To Life Foundation Living Room in Monmouth Medical Center. Produced detail drawings for custom furniture and cabinetry.
- 6.2005 – 8.2005 **NBBJ**, Seattle, WA
Intern
Assisted core design team with design development and construction documents for Banner Gateway Medical Center. Produced elevation studies and building renderings for three day design charrette with the client, engineers, and landscape architects. Prepared presentation boards for the town of Gilbert review council. Trained employees in safety and maintenance for newly installed laser cutter.
- Summers 2001 – 2004 **Gerrard + Tan Architects**, New York, NY
Intern
Prepared and maintained drawing sets and construction documents for meetings with clients and contractors. Produced 3-D model renderings to be presented in company portfolio. Managed and expanded the library and catalog database. Learned all necessary computer programs independently.

EXHIBITIONS / RESEARCH

- 10 – 12.2005 **Broken Vision Exhibition**
Cornell University, Ithaca / Royal College of Art, London / Kunsthochschule für Medien, Cologne
Project: Cognizance Box
Designed an interdisciplinary installation as a participant in a traveling exhibition which was shown in the Cornell Hartell Gallery in October 2005, the Hockney Gallery of the Royal College of Art in London from October 31 to November 5 and the Kunsthochschule für Medien in Cologne in the Spring of 2006.
- 12.2004 & 8.2005 **Roma Continua Exhibition**
Palazzo Lazzaroni, Rome, Italy / Cornell University, Ithaca
Exhibit Co-Curator and Designer
Collaborated with Professor Françoise Fromonot on design, construction and installation of end of year show highlighting achievements of Cornell-in-Rome program.

YALE GRAD STUDENT

EXHIBITIONS / RESEARCH (continued)

- 2008 **White House Redux**
Storefront for Art and Architecture / Control Group Design Competition
Participant in competition for the redesign and reconceptualization of the White House in Washington D.C.
- 2006 **Kuelap 2007**
Arquitectum
Participant in competition for the design of a lodge-museum adjacent to the Kuelap Fortress in Chachapoyas, Peru.

RELATED EXPERIENCE

- Spring 2011 **YSoA Publications**
Assistant Editor
Urban Insertions (forthcoming Louis I. Kahn Visiting Assistant Professorship publication)
Organize and collect all text and images to be included in publication. Responsible for editing of articles, photographs and book layout. Coordinate book content and print production with printers, publications director, copy editors and publisher.
- 8.2009 – Present **Yale School of Architecture**, New Haven, CT
Digital Media Lab Assistant
Organized workshop on streamlining workflow between various computer applications. Assist students with printing on large format plotters.
- 8.2009 – Present **YSM Institutional Planning and Communications**, New Haven, CT
Web / Graphic Designer
Design layouts and content systems for newly developed School of Medicine website. Design Yale School of Medicine IPC annual report documenting improvements and internal growth.
- 8.2004 – 6.2006 **Cornell University**, Ithaca, NY
Computer Room Monitor
Assisted students with large format printing on plotters. Troubleshoot problems in the department's primary computer facility which included 60 computers, 5 printers, and 5 scanners. Regulated use and maintenance of laser cutter.

HONORS / AWARDS

- 01.2011 **ARCHIVE Dropbox**
Association of Collegiate Schools of Architecture (ACSA)
SEED Award
Project: Agroland
- 2010 **les cravates par Hermès graphic competition**
designboom, in collaboration with Hermès, FRANCE
Shortlist
- 2009 – 10 **Robert James Eidlitz Traveling Fellowship**
Cornell University
- 11.2008 **KRob Delineation & Illustration Competition**
AIA Dallas 2008
Finalist
- 7.2008 **South Street Seaport: Re-envisioning the Urban Edge**
Center for Architecture AIA NYC Chapter
ENYA Competition Jury Selection
Project: Block 18
- 2.2007 **Pamphlet Architecture 29**
Princeton Architectural Press
Honorable Mention
Project: DMZOO

PUBLICATIONS

- 2010 **Retrospecta 09-10**
Yale School of Architecture
Project: Agroland
- 2009 **Design for Obama**

Project: Porta Maggiore

SKILLS

Photoshop; Illustrator; Indesign; SketchUp; AutoCAD; ArchiCAD; 3DS Max; Rhino; V-Ray; Brazil; Maxwell; Grasshopper; GIS; Processing; Java; HTML; CSS

Trained as an architect by Cornell University where her inherent inquisitive spirit was nurtured and evolved [REDACTED] : fostered a commitment to executing design work with creative zeal and technical prowess. [REDACTED] is involved in an unremitting quest to extend her range and potential as an architect, perpetuating uncommon design solutions for the physical built environment. Inspired by the creative potential of design of all facets and fueled by a passion for research, investigation and innovation, as an architect life is committed to defeating habit with originality, ushering in creativity. In her work the unexpected is sought after, contradiction is celebrated. Creating works of purpose rooted in a commitment to high quality, attention to detail and an appreciation for the uncommon is the objective.

BIOGRAPHICAL RESUME

[REDACTED] ARCHITECTURAL WORKSHOP

[blackheaddesigns.com | ivanable.com]

[REDACTED] ARCHITECTURAL WORKSHOP is an outlet for practice based research and investigation rooted in the notion of contradiction. An architecture of complexity and contradiction operates on multiple levels, promoting innovation of form and spatial organization and is informed by the discordant elements of its sociopolitical and socioeconomic contexts. It has been said that the aforementioned notion of a complex and contradictory architecture is itself too complex; that it is too much for architecture or architects to confront and attempt to tackle in their work. Well, "Less is a Bore" [Robert Venturi]. The architectural investigations and explorations undertaken by [REDACTED] ARCHITECTURAL WORKSHOP seek to embrace the difficult number of parts - the duality, and the degrees of multiplicity [formally, spatially or programmatically]. Championing building program and structure that dictates a combination of elements within any of the varying scales of a building. This is an architecture that exploits the duality and exercises a rigorous process of analysis to resolve dualities into uncommon, hybrid totalities.

Objective

A challenging position in architecture field where I can enhance my skills and strength in conjunction with organization's goals and objectives.

Experience

Architect, Creative Design Architects Pvt. Ltd.

March 2008 - July 2009

Kupondol, Lalitpur

Developed preliminary designs (both contemporary and traditional style) for bungalow, small and mid sized residential, low-rise apartment and commercial spaces. Designed, developed, prepared working set drawings, specifications and construction documents for all of the above projects. Applied artistic expertise and technical skills to create freehand sketches and computer generated architectural renderings, site plans and graphics. Assisted interns with Autocad and drafting skills. Collaborated and worked with contractors and site supervision to various residential projects.

- Assisted Senior Architect on interior layouts, detail interior drawings and electrical layout of branch offices of Siddhartha Bank at Birgunj, Tulsipur, Thamel (Nepal)
- Designed in contemporary modern interior and detail drawing of ceiling, toilet, bedrooms and living room and construction documents, with supervision in foundation layout for a luxurious low-rise apartment of area 16,425 sq. ft. at Bhatbhateni, Kathmandu
- Generated computer rendering using 3d Max 2009, Autocad 2007 of various proposed three - four storied residences and apartment interior.

Architect, Shayama Colony

September 2007 - October 2007

Sitapaila, Kathmandu

Discussed design options, site development with Project Manager and to get information about the progress and further development on individual housing options. Researched on codes and building regulations for housing. Site supervision of the designed buildings and assisted in building setting out of the designed housing unit. 150 housing units which varied according to the number of bedroom, among them designed three different units.

- Design for two, three and five bedroom housing types of family residence on various plot sizes.
- One of the designed housing units were on sloped site with mixture of sand and clay soil, I suggested use of shear wall with water barrier on the wall of basement rooms facing the soil mass.
- Architectural, working drawings, details of toilet and 3D render using 3d Max 2009, Autocad 2008 for the housing types

Trainee Architect, Kupondol, Lalitpur

November 2005 - June 2006

Kupondol, Lalitpur

Designed, developed 2d/ 3d drawings, plan/ elevation/ section drawings, wall sections using Autocad 2005 for residential building. Site visits for basic understanding of foundation work in a commercial building. Detailed drawings of structural, electrical and plumbing details for residential, commercial and institutional buildings.

- Designed architectural facade of commercial building at Putalisadak, Kathmandu
- Drafted structural, plumbing and electrical working drawings of SAEM-MUL -HOSPIC
- Drafted structural, plumbing and electrical working drawings of Milal School and 3D developed using 3d Max 2005

Freelance Works

- 3d model and render of an apartment using 3d Design Max 2009 and Adobe Photoshop CS3
- Interior design and layout of condominium of Mr. Ravi Rauniyar, Bhotebahal
- Participation in national competition for conceptual design of National Planning Commission Building, Kathmandu, Nepal - prepared 3d rendering of the projects with sustainable design features like rainwater harvesting, solar panels, green roof.

Education

Master of Architecture (research program)

August 2009 - May 2011

United States of America

GPA: 3.53

Research Topic: Design Strategy for sustainable residential building: Kathmandu Metropolitan City, Nepal

- Case studies on green rating system mainly in Leadership in Energy and Environment Design (LEED), Building Research Assessment Establishments Environmental Assessment Method (BREEAM) (UK) and Green Rating and Integrated Habitat Assessment (GRIHA) India.
- Study on sustainable system focusing on energy, water and waste water management
- Concept design, development and strategies for modular sustainable residential building for Kathmandu, Nepal

EDUCATION

09/08 - Present

Boston Architectural College, Boston, MA

Candidate for Bachelor of Architecture Degree

Accumulative G.P.A. of 3.6.

09/05/03 - 03/07

Capital Community College, Hartford, CT

Associate Degree in Architectural Engineering

Technology

TECHNICAL BACKGROUND

Proficient in:

AutoCAD

Adobe Photoshop

Google SketchUp

Rhinoceros 4.0

Physical Model Making

Knowledge of:

Revit Architecture

Adobe InDesign

V Ray Plug In Render

3D Studio Max

Laser Assisted Modeling

PROFESSIONAL EXPERIENCE

11/08 - Present

Freelance Tutor

Educate Architecture & Interior Design students to better their production quality and skill level in physical model making & computer programs such as AutoCAD, Adobe Photoshop, & Google SketchUp, free of charge.

04/07 - Present

Consultant Architectural Drafting & Rendering Services

Create C.A.D documentation of commercial & residential projects.

Provide design & 3D visualization of residential, healthcare, and commercial architecture for firms and independent contractors.

02/04 - 09/07

AE Design Group Architectural Designer/Draftsman

Developed construction documents for Healthcare & Commercial projects, along with some Residential & Probono.

Applied materials & methods research to working drawings.

Analyzed building code research & analysis.

OUTSIDE ACTIVITIES

03/08 - 05/08

2008 2009 ACSA/AISC Design Competition Project Manager/Architectural Draftsman/Designer

Coordinated team meetings.

Provided direction in technical & conceptual design of an urban elementary school that

critically examines life cycle & proposes an innovative solution through the use of steel.

Allocated project responsibilities to each team member and ensured deadlines were met.

CONTENT.

 <p>cell phone: (801) 444-4444 @yahoo.com</p>	<p>Vitruvius: firmness, commodity, and delight.</p> <p>Alberti: ornament and beauty. This definition has transmitted itself to the relevance of today's architecture. Ornament in this case is not considered to be decoration, but through Loos, and others it has become translated to material.</p> <p>Semper: the hearth, mound, roof, and enclosure. This kind of language is very similar to the frame and curtain wall construction we use today. However, what I value is that there is some sort of phenomenological aspect to the hearth and mound. The mound represents a connection to the history and spirit of the place.</p> <p>Loos: ornament and crime. Loos takes on Alberti's notions of ornament and refines the definition to beautiful material as being the replacement for decoration.</p>
Objective	<p>I am seeking a full-time position as an architectural designer/project architect. I am also looking to join a firm that has strong interests in urban architecture and sustainability, and where opportunities are available to move up and grow within the firm.</p>
Work Experience	<p> </p> <p>Project architect/coordinator for a 7 story, 230,000sf, \$30million office building -Team leader involved in all aspects of project from overall building design, detailing, specifications, consultant coordination, client correspondence, & construction bid coordination.</p> <p>Intern Architect: -Assisted in various commercial office and mixed-use projects</p> <p> </p> <p>Intern/project Architect: assisted in 3 projects 1) project architect for major downtown block demolition, excavation, shoring, utilities, and underground parking. Very complex project coordination between multiple teams of engineers, architects, contractors, and owner representatives.</p> <p>2) Assisted partner-in-charge in \$20 million college building expansion. Coordinated engineering consultant information; assisted in client interaction/communication; assisted in most major production responsibilities; implemented code analysis.</p> <p>3) Assisted partner-in-charge with \$22 million college alumni building. Coordinated LEED analysis implementation; coordinated engineering consultant information; assisted in most major production responsibilities; Coordinated all responsibilities for addendum phase in absence of partner-in-charge.</p> <p> </p> <p>Intern architect/designer: assisted in 5 projects: 1) \$11 million YMCA addition; 2) \$10 million Jewish temple renovation & addition; 3) \$1 million interior theater; 4) \$11 million Baptist Family Community Center; 5) \$11 million Univ. Of Georgia Dining Commons</p> <p>-Project #1: designed main entrance and assisted in all other project aspects in LEED building -Project #2: designed main entrance and assisted in project from schematics and into building completion. -Project #3: assisted partner-in-charge in construction administration of small interior theater. -Project #4: designed main entrance and some interiors; assisted in project from design development to construction documents. -Project #5: assisted in production responsibilities.</p>
Education	<p> College of Architecture #15, U.S. News 2001 (M ARCH I) May 2002; 3.77 GPA</p> <p> School of Architecture (B ARCH) May 1999; 3.43 GPA</p> <p> (A.S. in Architectural Technology) August 1997, 3.7 GPA -produced CAD construction drawings for a residence</p>
Honors/Awards	<p>Genoa Study Abroad Scholarship/TVS Fellowship Jan.-May 2001 competition winner to represent Georgia Tech in joint study abroad program </p> <p>Students Design for Sustainability @ Atlanta Int'l Museum of Design Sep.-Feb. '03 </p>
Skills	<ul style="list-style-type: none"> - LEED(Leadership in Energy & Environmental Design) NC accredited professional - excellent freehand drawing ability (color pencil, pastels, charcoal, sketching) - AutoCAD 14-2006, Adobe Photoshop/Illustrator, Sketchup, 3D Studio Viz - model making in various materials

Teaching Fellow at Yale School of Architecture

RESEARCH

2010 | 2011 *Indexing Sustainability*, Latrobe Prize Finalist
With YSoA faculty Bimal Mendis and Joyce Hsiang, developed new techniques for urban spatial indexing

2009 | 2010 | 2011 *Development of Green Integrated Core Engineering Technologies for Supertall Buildings*
With YSoA faculty Kyoung Sun Moon, developed new methods for rapid analysis of parametric structural design

2009 | 2010 *Somewhere Between East and West*, a documentary film on late Soviet Architecture
With Aidan Doyle (YSoA '10), shot and edited 31 interviews with architects in Russia, Georgia, and Ukraine

2003 *Pure Rotational Spectrum and Nuclear Quadrupole Hyperfine Structure of Argon-Imidazole*
Senior thesis in Chemistry, presented at the 58th Annual Symposium on Molecular Spectroscopy

PROFESSIONAL

2010 | 2011 Plan B Architecture + Urbanism
Developed urban planning algorithms for the Maldives government to reduce its national carbon footprint

2003 | 2004 | 2006 | 2007 Ziger/Snead Architects
SD through CA experience on 12 projects, including MICA's Brown Center and the MD Historical Society

PROFESSIONAL EXPERIENCE

Roger Ferris + Partners, Westport, Connecticut, 2011

Member of design team for high-end, modern single family houses in Bridgehampton and Southampton, New York; produced design options for partners' review, including massing, planning, and façade studies for multiple buildings; prepared drawings for engineering work

MacLennan Jaunkalns Miller Architects, Toronto, Ontario, 2008–2010

Member of design teams for six multi-million dollar civic projects, including a \$115 million recreation center in Edmonton, Alberta; produced massing options, developed indoor and outdoor public space design, façade configurations and glazing system

Concise/effective
explanation of roles
and responsibilities
on each project

Anton Art Center, Mount Clemens, Michigan, 2008

Project manager for new gift shop; oversaw schematic design, design development, construction documentation, and procurement; refined design to satisfy budget of \$8,000

Solomonoff Architecture Studio, New York, New York, 2007

Coordinator for 1,200 sf loft renovation; managed schematic design to procurement phases; designed options, produced complete drawing sets for approvals and construction, negotiated with contractors; contributed to other residential and commercial projects as well as competitions

Levy Design Partners, San Francisco, California, 2006

Member of project team for major San Francisco Unified School District renovation project; completed comprehensive existing building survey, coordinated site work logistics

HLW International, London, England, 2005

Interior designer for professional offices in Greater London; developed millwork details and finish specifications, produced visualizations of options

Bruce Carscadden Architect, Vancouver, British Columbia, 2005

Member of design team for single family house on Salt Spring Island, British Columbia; developed options for team review; produced study models and working drawings

Quadrangle Architects, Toronto, Ontario, 2004

Design team assistant for high-rise condominium projects in Greater Toronto

EDUCATION

Yale University, School of Architecture, 2009–2012

Master of Architecture

University of Waterloo, School of Architecture, 2003–2008

Bachelor of Architectural Studies, graduated with Distinction

HONORS + ACTIVITIES

Editor of Perspecta, "Money" issue, Yale School of Architecture, 2011–2014

Rules Committee, Yale School of Architecture, 2011–2012

Instructional Innovation Intern, i3 Program, Yale Information Technology Services, 2012

Teaching Assistant, "Urban Life and Landscape," Elihu Rubin, Yale College, 2011

Published in Retrospecta, three projects from studios and seminars, Yale School of Architecture, 2011

Building Project Web Manager, Yale School of Architecture, 2010

North American Mobility in Higher Education Scholarship, University of Illinois at Chicago, 2006

Award for Outstanding Design Work, highest grade in studio, Waterloo School of Architecture, 2006

Featured in Projects Review, landscape installation, Waterloo School of Architecture, 2006

President of Waterloo Architecture Students Association, Waterloo School of Architecture, 2006

LICENSING

IDP Registered Intern Architect, working toward completion of ARE and experience hours by 2014

Skills

YALE UNIVERSITY

M.Arch I Program, Yale School of Architecture.

UNIVERSITY OF MEMPHIS

Summa Cum Laude with Honors. BA Communication, conc. Film and Video Production. Graduated 2007.
BFA Architecture, 2005 - 2008. Minor in Performance Theatre.

MAD ARCHITECTS Beijing, China

Completed the Design Development phase of Huangshan Taiping Lake, a multi-tower, luxury residential development in Anhui Province. Also worked through DD and CDs on the Harbin Labor Recreation Center, a large cultural building in Harbin, China.

1100: ARCHITECT New York, NY

Worked primarily through the schematic design phase of the Brooklyn Detention Center renovation and addition. Duties included developing design options, Rhino modeling, V-Ray rendering, Photoshop, CAD presentation drawing and physical model-making. Also worked through design development and construction documentation for an office renovation for Trollback + Company.

YALE BUILDING PROJECT New Haven, CT

Worked with a team of Yale students to design and construct a two-family residence in New Haven.

LOONEY RICKS KISS ARCHITECTS Memphis, TN

Responsible for the creation of marketing documents which required work in AutoCAD, InDesign, Photoshop, as well as hand rendering. Also built models and drew details for upscale residential projects. Full time in the summers, part time during school year.

FILM WORK

Have worked on various films in positions ranging from Script Editor to Production Designer.
Detailed resume available upon request.

DEMPSEY MORRISON SCHOLARSHIP

Full-tuition scholarship awarded to two students each year by the University of Memphis Architecture Program.

ELIZABETH AND HAROLD ROBINSON SCHOLARSHIP

Awarded to several students each year for excellence within the College of Communication and Fine Arts.

ELVIS PRESLEY SCHOLARSHIP

Awarded to one student at the University of Memphis each year for excellence in the field of communication.

EARLY SCHOLARS SCHOLARSHIP

Full-tuition academic scholarship awarded by the University of Memphis to incoming freshman who show exceptional promise.

NEW YORK TIMES

On The Cheap: Thinking Like a Student by Joyce Wadler.

Images and descriptions of two designs (a candle holder and headboard), including a bio, featured in the Home section of the paper.

RETROSPECTA

The Rise and Fall (and Rise) of Rudolph Hall

Essay for Carter Wiseman's Writing on Architecture course selected for annual Yale publication.

Architecture and Psychoanalysis in Alfred Hitchcock's Vertigo

Essay for Dietrich Neumann's Film Architecture course selected for annual Yale Publication.

Cantloop

Chair Design for Peter DeBretteville's Furniture Design and Prototyping course selected for annual Yale Publication.

SUKKAH CITY New York, NY

Worked with Dale Suttle, So Sugita, and Ginna Nguyen to construct *Gathering*, a temporary structure for the Sukkah City exhibition in Manhattan's Union Square.

AMERICAN INSTITUTE OF ARCHITECTURE STUDENTS

President

ALPHA RHO CHI

Member of National Architecture Honor Fraternity.

INSIGHT

Served as Director, Technical Director, and Floor Director on this student produced news show.

Rhinoceros, V-Ray, Revit, AutoCAD, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Vectorworks, Maya, Final Cut Pro, Adobe Premiere, Adobe After Effects, Microsoft Office. Also skilled in Hand Rendering, Photography, Videography and Editing, as well as Sound Recording and Editing, Basic Woodworking and Metalworking. Experience with Laser Cutters, CNC Mills (3 & 5-axis), Plastic Printers, Water Jet Cutters. Some experience with Grasshopper and Processing.

EDUCATION

Yale School of Architecture / New Haven, Connecticut
Master of Architecture (I), August 2009 - May 2012

National University of Fine Arts and Music (東京芸術大学) / Tokyo, Japan
Master of Fine Arts (Product Design & Direction), April 2006 - February 2008

College of Fine Arts, University of New South Wales / Darlinghurst, Australia
Bachelor of Design (Product & Graphic Design), February 1995 - November 2000

PROFESSIONAL EXPERIENCE

Robert A. M. Stern Architects / New York City
Architectural Intern, July 2010 - August 2010
Generated large scale physical models of the New Residential Colleges at Yale from Revit models, developed massing and concept models for numerous new business schools, created drawings at Design Development stage for a tall building project in India.

Pole Dance (Moma/P.S.1 Young Architects Program) / Queens, New York
Volunteer Construction & Installation for Solid Objectives - Idenburg Liu, May 2010

Yale School Of Architecture / Fabrication Lab
Shop Monitor, August 2009 - December 2011
Responsible for safe operation, appropriate tool selection and troubleshooting digital fabrication in the shop.

Richard Huxley & Associates Architects / Darlinghurst, Australia
Graphic / Web Design, November 2003 - September 2004
Generated a new graphic identity for the office, designed boards and other competition materials, designed and maintained the office website.

workshopped - Australian Product Design Showcase / Sydney, Australia
Founding Member / Exhibition Design / Graphic Design, 2001 - 2004

Atelier Van Lieshout / Rotterdam, The Netherlands
Fabrication / Construction / Installation, January - November 2002
Fabrication of artworks, components and structures for international projects including the *Franchise Unit* at Middleheim Park, Antwerp and *AVL Suisse* for the Swiss Expo 2002 in Biel.

Urban Art Projects / Sydney, Australia
Graphic / Industrial Design, February - October 2000
Designed concepts for urban hardware, including furniture and wayfinding systems.

ACADEMIC EXPERIENCE

Yale School of Architecture
Teaching Assistant: Cold War Urbanism: Berlin for Prof. Stanislaus von Moos, January - May, 2012
Created and delivered presentations, maintained library reserve and course website.

Yale School of Architecture
Teaching Assistant: The Digital Turn for Prof. Mario Carpo, August - December 2010

College of Fine Arts, University of New South Wales / Darlinghurst, Australia
Tutor - 4th Year Design Studio, Bachelor of Design Program, March - November 2004

Faculty Of The Built Environment, University of New South Wales / Kensington, Australia
Teaching Assistant, Communications 3, Bachelor of Interior Architecture, August - November 2003

AWARDS

Yale School of Architecture
George Nelson Scholarship Fund / \$15,000 Stipend Recipient, 2011
Travel and research project; "Rogelio Salmons & the Trajectory of the Urban-Social Intervention in Colombia"

Branford College Graduate Affiliate, Yale University
Graduate - Undergraduate Liaison for the Architecture School, 2009 - 2012

Japanese Ministry of Culture
Scholarship Recipient, 2005 - 2008

Object Journal, New Design 2001 Award & Studio Residency, April 2001 - August 2001

Monument [Architectural Journal] UNSW B. Design Graduating Class Of 2000
Award For Product Design, 2000

professional interests

design environment	As a young designer and recent graduate, I am looking to work in a design firm that is interested in both the practice of producing realized built work as well as investigating new and experimental design tools. I am a firm believer in using sketching, physical modeling, and computer-aided design equally as means to resolving a project. I am capable of working fast and loose when needed and I can also produce display quality models and graphic work.
field experience	My experience in architecture for the past 7 years has been primarily academic, as I wished to obtain my masters degree as soon as possible. In that time I have held several intern positions in architecture firms during school recesses. This time was used to acclimate myself with the nature of the profession and find a balance between my conceptual and practical skill sets. In those vignettes, I have excelled in roles that required conceptual flexibility with regard for common sense and the practicalities of realized work.
intent	Over the next 3 years, I am looking to work in a setting that will help me complete my IDP. I intend to complete my licensure in this period of time. As part to this process, I will be looking for a position that will allow me to become a competent practitioner.
expectations	In any position I expect to have a great deal to learn, and I am looking forward to the opportunity to expand my abilities in a professional setting. Regardless of my skill set, the best asset I can bring to work is my intensity and capability to rise to any challenge that presents itself. I expect to be given tasks that will push me and give me to opportunity to excel as I have in my academic studies.

Title

Firm Name

address

address

Dear

I am writing you to express my interest in a junior architect position with I will be graduating in May with a Masters degree from Yale University and am searching for a firm that is at the forefront of architecture through its design, material and fabrication techniques.

Throughout school, I have been inspired by 's work and am eager to tackle those processes at which I believe this firm excels. The program and facilities at Yale have allowed me to explore a wide range of fabrication in addition to design and expression via abundant media and software. Through academic, work [and life] experiences, I have developed an intuition and ambition to design and assemble spaces, products and artifacts married in both function and aesthetics.

I have participated in various design phases of projects of various scales and types through over three years of working experience. My small firm, experience at Goring and Straja exposed me to overall procedures and processes of architectural projects and facilitated a smooth transition to Skidmore, Owings and Merrill in San Francisco. I participated primarily in conceptual and schematic design phases of SOM's Christ of Light Cathedral in Oakland, the construction documentation phase for the Kia Design Center in Irvine, as well as winning competition entries such as the Jingling Hotel Renovation in Nanjing.

Last summer, I worked at the Kengo Kuma atelier in Tokyo, undertaking the preliminary competition effort for the Museum of Nuragic & Contemporary Art and development of the Golf club of Villasimius to be built later this year. With this foundation, my hope is to focus on and follow through with a design project in reciprocal collaboration with inspiring team members.

I see as being an environment in which I may absorb useful skills and knowledge while being an asset to your designs and your services. Following is a sample of my work and curriculum vitae. I eagerly look forward to your response and hope that I may make a significant contribution to Thank you for your time and consideration!

Sincerely,

• PERSONALIZE CONCLUDING REMARKS

Dear Contact,

RESPONSE TO ADVERTISEMENT

In response to your opening for a Job Title, please accept my résumé and portfolio sample for your consideration.

I am currently a third year Masters of Architecture student at the Yale School of Architecture and will be graduating this May. Specific Company Information. My passion for architecture lies in pushing the boundaries that have traditionally defined our profession. I believe that the new means of digital fabrication and innovative practice methodologies have the potential to revolutionize the field of architecture. To that end, I am eager to work for your firm.

UNIQUENESS

While completing my undergraduate degree in architecture at the University of Washington I made the decision to extend my studies and pursue a second degree in construction management. In addition to providing me with a rigorous education in two disciplines, this decision afforded me the unique experience of participating in design-build competitions. During my last year of school and immediately following I was hired by Lydig Construction, Inc., to be a project engineer for a \$14 million public middle school project. This position provided me with invaluable hands-on practice in the daily management of multiple contracting teams, concrete, steel and glass installation and the intense, day-to-day communications and compromises that occur between the architects, the general contractor, and the specialty contractors.

This professional experience helped me synthesize my construction and design skills to better serve my Yale Building Project team as we put together a winning design proposal. I was further honored by my classmates and elected to be a field crew manager where my on-site management expertise could be utilized. Upon completion of my Building Project duties I was asked by one of my professors to join his design firm to work as an intern and spent the remainder of the summer where I worked on several high-end restaurant projects and competition proposals.

I hope that you find my unique combination of education, experience and genuine interest in design, alternative practice models, and fabrication a good fit for Company Name. I look forward to speaking with you soon.

Sincerely,

Yale Student

Dear Mr. (or Ms.) last name,

**HIGH MINDED WHEN
APPROPRIATE**

I believe in the built world. I believe that architecture has the power to affect the way we think, act, and structure our society. I tell you this because I think *TK your firm* is contributing to this effort through *TK quality design*, and I would like the opportunity to work with you in creating architecture.

As a recent graduate of the Yale School of Architecture, I am eager to find a position in a firm that values design, understands the importance of client service, and has a progressive management structure. My research indicates that *TK your company* has been able to successfully integrate these qualities into a firm that is able to create architecture at the highest level. I am particularly impressed with the *TK built project* because it illustrates these qualities in action.

I would like to further this conversation by contacting you to schedule an interview. You can expect my call in two weeks. In the mean time, feel free to contact me at your convenience if you have any other questions.

Thank you for your time.

Sincerely yours,

Handwritten signature

Yale Student

CONSIDER WORK EXPERIENCE OUTSIDE OF AN ARCHITECTURAL OFFICE

Dear Ms. Dawn Mak,

As per our email correspondence, I am writing to inquire possibility of participating in your Graduate Placement Program, preferably in project management at Capitaland Limited. I am a final-year graduate student at Yale School of Architecture and am looking to attain a Master in Architecture degree in May 2007.

I believe more communication between architects and developers could help bridge the gap between the design and financial aspects of a project. It is my goal to understand both processes and to widen my experiences and knowledge in a more balanced and well-rounded manner.

As a native of Singapore who knows the city intimately and by looking at your website, I am amazed by the immense variety of the projects that Capitaland engages in. The range of projects is extremely compelling and spurs my interest in understanding the relationship between a visionary design and its actual implementation under budgetary and other practical constraints.

Your Clarke Quay project remains as one of my favorite examples of a development that adds value to a historical site by implementing diverse new programs to traditional building types, and the Citylights residential apartments is yet another stellar combination of location, design, and market potential.

I hope this letter has conveyed my interest in contributing my experience and abilities to an exceptional company such as Capitaland.

Please inform me of any opportunity in your company. I can be contacted via email at yale.stude@yale.edu as well as via phone at 1-555-555-5555

Sincerely,

Yale G. Student

Mazie Huh
Allied Works Architecture, Inc.
12 West 27th Street
New York, NY 10001

Dear Ms. Huh:

I am receiving a Master of Architecture from Yale in May, and I would like to work for Allied Works Architecture after graduation. Adam Ganser, a friend from graduate school, suggested that I write to you. I have followed your work and am always taken with its conceptual clarity. I specifically appreciate the Maryhill Overlook project and the themes behind the Sitings Project as a whole.

As a graduate student, I am eager to learn. That said, I do have office and work experience that would make me a good candidate and enable me to quickly contribute:

- I spent several summers working in the construction industry for both an industrial contractor and small residential projects.
- I worked for 2 years at architecture firms in New York where I put together CD sets, designed smaller projects and worked with clients and contractors.
- I have had several experiences in school and prior that put me in a position to understand how offices work and how to manage projects.
- I have focused on digital design and fabrication in school which will allow me to contribute to your contemporary work.

I have enclosed my resume and some samples of my work. If you have any questions I can be reached by phone or email.

Thank you for your consideration.

Sincerely,

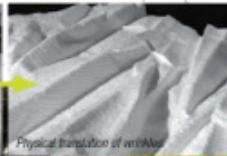

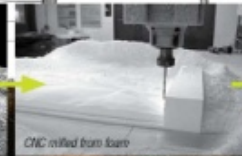

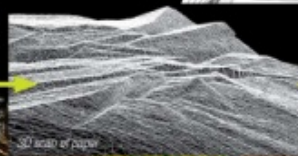

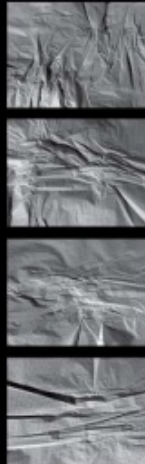

Yale Student

The Socrates Sculpture Park resides on the water-front in Queens, on infill land built up over many years. Outdoor space for exhibiting installation art is rather limited and prosaic; the directors would like to expand the park, adding a kayak launch and indoor gallery for additional programming. With the desire to create both differentiated space and a consistent language of expansion, the project explored the controlled wrinkling of paper as a generator for topography. Ultimately a viable instance was chosen and 3D scanned, then further manipulated digitally towards a finished product. The result is a park which connects to the existing, manicured spaces, but is characterized by uncultivated, wild ruptures of natural ecology, from which built spaces can emerge.

Sao Paulo is the most populated city in Brazil at 11,037,593 inhabitants. Despite its large population Sao Paulo as an urban fabric is quite inefficient--Sao Paulo has fallen victim to urban sprawl. This affliction has caused serious environmental and ecological issues. The project proposes an urban ecology that mitigates inefficient density by optimizing compactness. Using a multitude of fitness softwares (processing, grasshopper, ecotect, and galapagos) the urban scheme consistently packs, orients and grows relative to specified parameters (envelope ratio, solar orientation, use, etc.). Additionally, the envelope of the fabric parallels the larger urban strategy by producing porosity, light, and entry in a consistent system that allows for diversity.

EDUCATION

YALE UNIVERSITY SCHOOL OF ARCHITECTURE, Master of Architecture Candidate *fall 2009 - present*
Expected graduation date 2012
Studios: Frank Gehry, Alan Plattus, Sunil Bald, Mimi Hoang, Amy Lelyveld, Martin Cox
UNIVERSITY OF VIRGINIA, Bachelor of Science in Architecture *2000-2004*
Studios: Phoebe Crisman, Sanda Iliescu, Peter Waldman, Susan Carpenter, Jason Johnson, Jason Kreutzer
Denmark International Studies Program *fall 2003*
Vicenza Program *summer 2003*
University of Virginia China Program *summer 2002*

EXPERIENCE

BALLINGER architects and engineers, Philadelphia *12/2004-5/2009 (IDP completed)*

Johns Hopkins School of Medicine *formation-CA*

Led the design, development and documentation of the auditorium, the case study room, all stairs including the monumental stair and its interface with the atrium. Completed masonry wall details and assisted with the curtainwall and skylight details. Other involvements included programming studies, product selection, code research, coordination with engineering disciplines and consultants, presentation material production in both physical and digital formats. During CA phase, assisted with shop drawings, RFIs, and thorough punchlist job.

Furman University Science Expansion *SD-CA*

Produced presentation materials including physical models, renderings and animation. Interpolated blueprint drawings of existing conditions into CAD. Performed key role in interdisciplinary coordination. Worked on LEED documentation, and the greenhouse. Responsible for all stairs and elevator details, and some interior as well as exterior details.

St. Vincent's Hospital Manhattan *formation-SD*

Collaborated closely with Pei Cobb Freed Architects on various programming options

Temple University School of Medicine *formation, CA*

Led the physical modeling team to produce successful representations of the firm's winning scheme

Other Projects:

Shore Memorial Hospital Surgical Addition, University of Pittsburgh Salk Hall Addition,
University of North Carolina Medical Education Building

HONORS

H.I. Feldman Prize nominee *fall 2011*

Rome Program *summer 2011*

University of Virginia *200-2004*

Dean's List (5 semesters), Intermediate Honor, Golden Key, National Society of Collegiate Scholars

EXHIBITION

Rome: continuity and change drawing exhibit *8-10/2011*

Exhibition "Arch Schools" at NY Center For Architecture *11/2011-3/2012*

System integration student work exhibition *10-12/2011*

Realized one student design project in Revit, partners: Christos Bolos and JT Bachman

YSOA year end exhibition of student work *5-8/2011*

Visualization II student work exhibition *spring 2010*

Charlottesville Fringe Festival *2001*

PUBLICATION

Designing Information: Human Factors and Common Sense in Information Design

Graduate Case Study 2

[Redacted]

[Redacted]@gmail.com

80 Howe Street, Apt. 310
New Haven, CT 06511

March 9, 2011

[Redacted]
New Haven, CT 06510

Dear Mr. [Redacted]

I am writing you to inquire about a summer internship at [Redacted]. Currently, I am completing my first year of the Post-Professional Master's program at Yale and I am seeking an internship opportunity at a well-respected firm to complement the three years of professional experience I accrued after graduating from the University of Tennessee.

Prior to enrolling at Yale this fall, I worked for three years at Trahan Architects, an eleven person emerging design practice located in Baton Rouge, Louisiana. In this small office context, I enjoyed a broad range of design opportunities including: construction documentation, presentation drawings and models, programming, project research, marketing and proposal preparation. It is my hope that these diverse experiences will allow me to be an effective member of your design studio, fulfilling roles in the context of a larger, more established office. I am particularly drawn to your firm due to its impressive record of intern development as I work to complete my own IDP record.

In addition to my resume, I have included a small collection of work samples for your review. These include two projects from my first term at Yale, as well as projects completed in the offices of Trahan Architects.

As a follow up to this letter, I would appreciate the opportunity to visit the office and share more of my work, should your schedule allow.

I enjoyed meeting you at [Redacted] and thank you in advance for your consideration.

Best Regards,

[Redacted]

A TRAIN STATION, FALL RIVER, MASSACHUSETTS

Situated on the shoreline of a struggling mill town, this proposed waterfront intervention creates a new district with a train station centerpiece. Beginning at the east end of the site with several residential blocks, the project cascades toward the waterfront with an open market and series of piers extending into the bay. From a series of object buildings at the top of the site, the program and forms diffuse into an open network of casual programs.

Weaving together disparate elements of a historic arts district, the project creates a strategic link to the returning railroad infrastructure, engendering a new identity for the community and establishing a unique economic and cultural asset.

WOVEN LAMP

*Yale University School of Architecture
Fabrication and Computation
Fall 2010*

*To be exhibited in the Yale School
of Architecture Digital Media and
Fabrication Show, Spring 2011*

Designed for an introductory fabrication course, this project utilizes several fabrication technologies, including CNC milling, laser cutting, water jet cutting and vacuum forming.

Birch veneer strips weave together into a tensile network with friction slot connections. Six identical vacuum-formed polystyrene panels shroud the bulb and are pinned in place to a central steel disk from which the woven basket of birch veneer strips suspends. The entire housing hangs from a standard IKEA light kit.

The lamp was designed to create a distinct dining space in an efficiency apartment, where slight interventions must be used to modulate space and atmosphere.

FIRST PRESBYTERIAN CHURCH OF COLORADO SPRINGS

with Trahan Architects
Fall 2008
Trey Trahan, FAIA, Principal
Ed Gaskin, AIA, Project Architect

Louisiana AIA State Honorable Mention
2009

Project Designer role, responsibilities included coordinating and leading research or conceptual design development, support in the schematic design phase, produced all design representations shown. Additionally, coordinated with clients and consultants in assistant project management role.

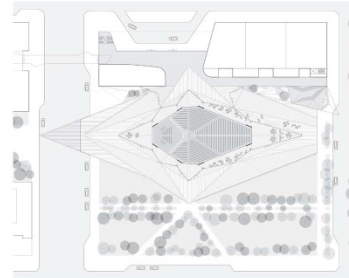

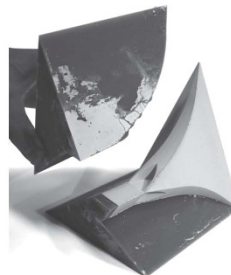

In response to existing facilities characterized by church leadership as "fortress-like", the proposed master plan and sanctuary design emphasize an atmosphere of openness. Moving toward the center of the site, the definitively secular life of the street progressively gives way to greater degrees of spiritual encounter and ultimately to sacred space through a series of choreographed spatial rings. At the center of the site, an ensemble of vaulted canopies rise and encircle space for 1750 worshippers seated on a single level.

BATON ROUGE INTERNATIONAL SCHOOL

with Trahan Architects
Fall 2008
Trey Trahan, FAIA, Principal
Ed Gaskin, AIA, Project Architect

Louisiana AIA State Honor Award 2009

Lead Project Designer role, responsibilities included coordinating and leading master plan conceptualization and delivery of master plan documents. Produced all drawings and models shown. Additionally, coordinated with clients and consultants in full project management role.

For the campus of a thriving international school, fragments of an incongruous water management strategy are transformed into a holistic expression of the landscape's hydrological system, cultivating a dense succession of habitats. Since the relatively open site is nearly 50% constrained by open water and wetlands, the expression of water moving through the site plays a critical role in the organization of building and site programs. The landscape is partitioned into a series of discrete, sheltered habitats by program strands undulating through the site.

Graduate Case Study 3

99 Howe St, New Haven, CT 06511

EDUCATION

Yale School of Architecture, Yale University - New Haven, CT
Master of Architecture

Aug. 2009 - May 2012

- **The H.I. Feldman Prize Nomination** Fall 2011
- For the best solution to an architectural problem in an advanced studio
- Critic: Peter Eisenman
- **Wendy Elizabeth Blanning Prize** Summer 2011
- Awarded annually to the student in the second year who has shown the most promise of development in the profession.
- **Rome, Italy: *Continuity and Change*** Summer 2011
- Study Abroad Grant

Knowlton School of Architecture, Ohio State University - Columbus, OH
Bachelor of Science in Architecture, Cum Laude with Distinction in Architecture

Sept. 2005 - June 2009

- **James E. Gui '54 Competition - First Place - 'Staged Justice'** Winter 2009
- Awarded best architectural solution out of class of 55 fourth-year students
- **ARTA - Research and Travel Grant: Curitiba, Brazil** Summer 2008
- Conducted independent research on a 10-day trip to Curitiba, Brazil
- **Wolfe Study Abroad Scholarship** Spring 2008
- Scholarship award for spring study abroad in Italy
- **Harry E. Phillan Scholarship** Spring 2008
- Awarded to an outstanding third-year student
- **Knowlton School of Architecture Faculty Award** Spring 2009
- Awarded to the faculty's elected 'top student' in the fourth-year

TEACHING + INTERNSHIPS

Yale School of Architecture - New Haven, CT
Teaching Fellow - Visual Studies with Peter Eisenman

Fall 2010 + 2011

- Provided guidance and criticism of analytic drawings to class of 50+ graduate students
- Facilitated weekly pin-ups and drawing discussions

Hume Coover Studio - Brooklyn, NY
Summer Intern

June 2011 - Aug. 2011

- Collaborated on two design competitions through drawing and digital modeling
- Conducted research in methods of representation through drawing

Hanbury Evans Wright Vlattas + Co. - Norfolk, VA
Summer Design Scholar

June 2008 - Aug. 2008

- Selected as one of four finalists in Scholar Program, a juried competition
- Worked alongside firm professionals on campus projects at both Michigan State University and Georgia Tech and participated in meetings with clients and consultants.

ACTIVITIES + LEADERSHIP

Yale SOA Admissions Committee - Selecting incoming class of 2015
Student Representative (1 of 2 M.Arch I students selected)

Feb. - March 2012

Architecture Student Council (Ohio State)
Vice President (2 years)

2007-2009

Habitat for Humanity
Two trips (Yonkers, NY and New Orleans, Louisiana)

2007 + 2008

COMPETITIONS

suckerPUNCH Lunar Cultural Center - Third Place
Independent Competition Entry

Jan. 2012

- "It's hip to be..." - project published on www.suckerpunchdaily.com
- International competition; third place finalist out of 200+ professional and student entries

EXHIBITIONS + PUBLICATIONS

Retrospecta - YSOA Journal of Student Work
Nine total nominated projects and drawings (2009, 2010, 2011)

2009-2011

Next! Student Exhibition - YSOA end-of-year exhibition
Two studio projects exhibited: fall 2010 and spring 2011

Summer 2011

Eco-Redux: Design Remedies for a Dying Planet
Traveling Exhibition curated by Lydia Kallipoliti

2008 - ongoing

- "Sky Farm: Vernacular Data Tower" - selected independent project

Figure/Disfigure

Advanced Studio Fall 2011

Critic: Peter Eisenman and Matt Roman

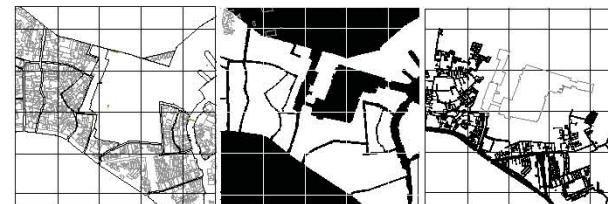

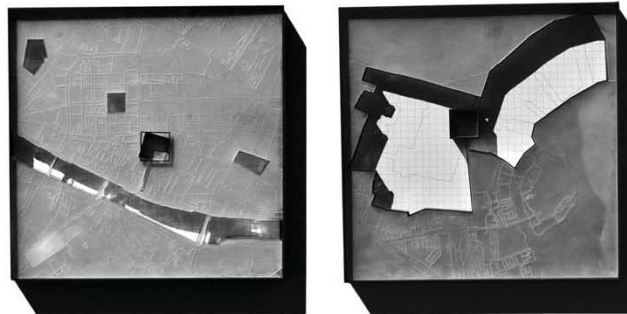

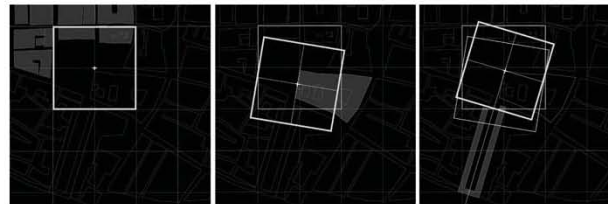

Team: Amy DeDonato and Miroslava Brooks

H.I. Feldman Prize Nomination

Project Description:

The project investigates the possibilities of both the physical and conceptual *framing* (or *re-framing*) of urban context in Venice and Florence, Italy. The reframing of Florence is conceptualized as a carving out of urban fabric, thus producing a hard interior edge that is comprehended through the aggregation of figures from the outside in. The Piazza della Signoria in Florence is presently an illegible figure due to the diverging orientations of its surrounding buildings (i.e. fabric abiding by the Roman grid vs. the alignment of the Uffizzi). The proposed housing project continues the logic of the Uffizzi as a strong figure that contains a voided three-dimensional volume.

The **Arsenale** site in Venice presents itself as a 'non-site'. Its privatized complex at large is physically walled-off from the rest of the city and conceptually vacuous. While the site of Florence is charged contextually from the exterior and understood as figural mass, the site in Venice is figural void. The project in Venice must then create its own context, thereby remaining formally autonomous – an internalized scheme that proposes a finite external limit.

Large and legible drawings and images

Project choice self explanatory and clearly illustrated with plan, perspective, and model image.

ACADEMIC

Yale School of Architecture | New Haven, CT Master of Architecture, degree candidate for 2012

Feldman Award nomination, fall 2011,
China advanced studio, Alan Plattus

Retrospecta selection, spring 2011 and fall 2011

Teaching Fellow, Structures I and II, 2011 - present
Conduct weekly review sessions, grade homework and exams

Yale Building Project design selection, spring 2010
Team proposal for 2,400 ft² house selected to be built

Financial Coordinator, Yale Building Project, spring 2010
Helped project costs, manage expenses, track budget

Stanford University | Stanford, CA Bachelor of Arts in Economics and Music, 2001-2005

Phi Beta Kappa Award for academic excellence, 2005
Freeman Foundation Grant for East Asian Studies, 2004
Undergraduate Award in Humanities and Sciences, 2004
President's Award for Outstanding Scholarship, 2002
Gates Millennium Scholar, 2001

PROFESSIONAL

nArchitects | New York, NY Model Builder, fall 2011

Fabricated a façade for a competition model using Rhino,
Powermill, 3-axis CNC mill, thermo/vacuum-formed acrylic.

Büro Ole Scheeren | Beijing, China Intern Architect, summer 2010

Produced schematic design proposals for a competition involving a 250 acre
masterplan and a 1.5 million ft² theater/retail complex. Developed the design
through physical and digital models, prepared and participated in client
presentations, conducted site and precedent research, developed graphics for
website. Extensive use of Rhino, Adobe CS5, and AutoCAD.

Barclays Capital, Investment Banking Division | Hong Kong Manager, 2008 (Analyst, 2005 - 2007)

Created complex financial derivatives for corporate clients in China and Korea.
Executed large-scale financial transactions, collaborated with global trading desks,
legal, operations, and risk management. Delivered internal briefings and client
presentations, worked closely with clients and maintained relationships. Extensive
use of Excel, proprietary financial and risk modeling tools, Bloomberg, Reuters.

Studio Critics:

Frank Gehry, spring 2012
Alan Plattus, spring and fall 2011
Mimi Hoang, fall 2010
Peter de Bretteville, spring 2010
Ben Pell, fall 2009

Digital Applications:

Proficient in AutoCAD, Rhino, V-ray,
Illustrator, Photoshop, InDesign,
Excel, Powerpoint, Word

Some knowledge of Maya,
Grasshopper, Revit, Sketchup,
Climate Consultant, Ecotect Analysis

Modelmaking & Fabrication:

Laser cutter, plasma cutter,
3-axis CNC mill, thermo/
vacuum-former, 3D printing,
metalworking, woodworking

Activities:

Performed extensively as a classical
pianist, semi-finalist in the Hong Kong
Asia Piano Competition, 2007

Classically trained baritone, sang
leading roles in operas and oratorios

Currently sings with the Yale Schola
Cantorum and maintains an active
concert schedule

Avid runner, traveler, photographer,
foodie, and pastry baker

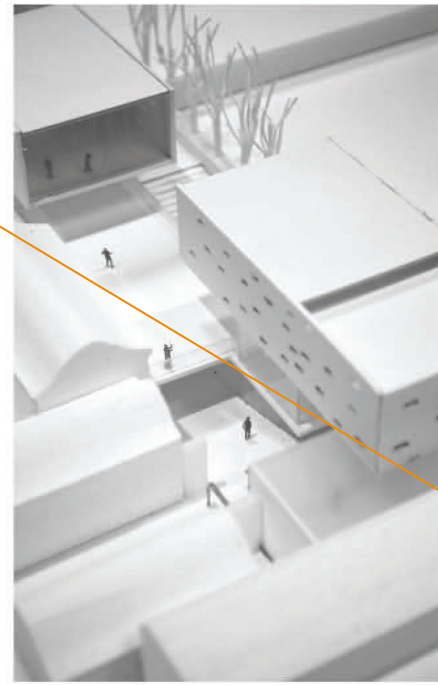

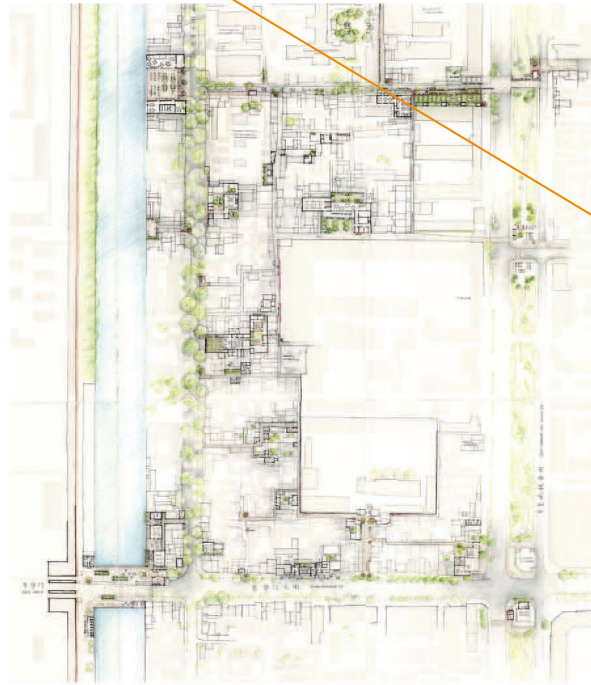

Languages:

Native speaker of Mandarin, working
knowledge of French and Cantonese,
some knowledge of Italian and German

BEICHIZI NEIGHBORHOOD PLAN

Beijing studio | Alan Plattus | Fall 2011
with

A *development strategy* for the historic Beichizi district that will foster sustainable local communities by operating within the scale, character, and existing uses of the neighborhood.

Large and legible drawings and images

Project choice self explanatory and clearly illustrated with plan, perspective, and model image.

Consistent graphics throughout all materials

Proper credit

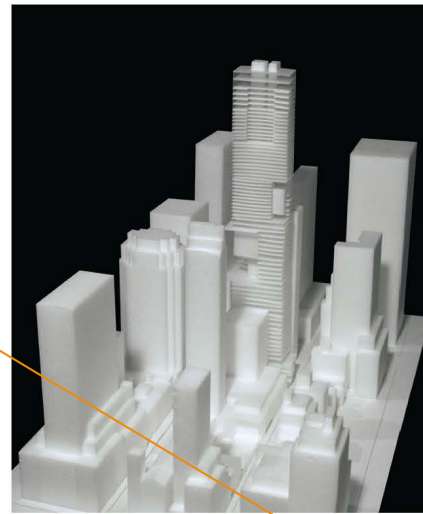

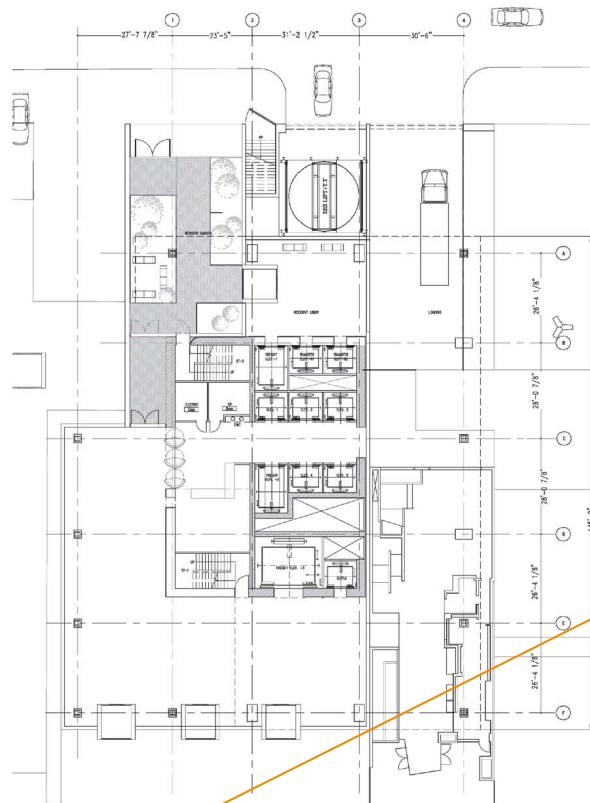

Contact info on all pages.

MOMA ART TOWER

Tall Buildings Seminar | Fall 2011

with

A *mixed-use tower* adjacent to the NYC MoMA. The gallery spaces in the MoMA Art Tower are vertically distributed, serving as a visual amenity for the tower's offices and residences. While housing art, the galleries themselves become artifacts that operate at the scale of the tower and the city.

Large and legible drawings and images

Project choice self explanatory and clearly illustrated with plan, perspective, and model image.

Consistent graphics throughout all materials

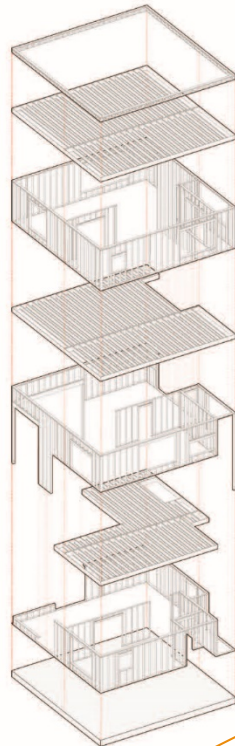

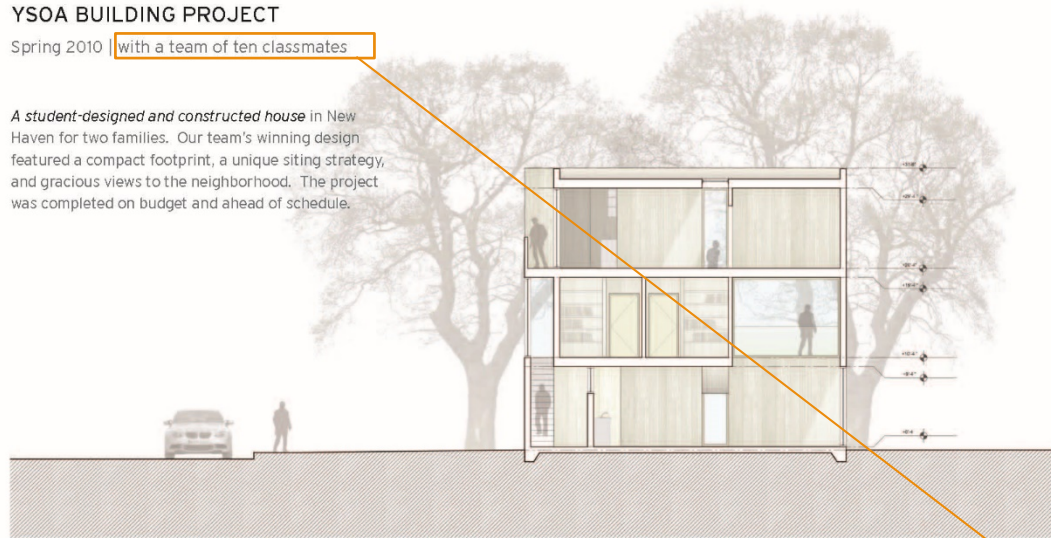

Proper credit given

YSOA BUILDING PROJECT

Spring 2010 | with a team of ten classmates

A student-designed and constructed house in New Haven for two families. Our team's winning design featured a compact footprint, a unique siting strategy, and gracious views to the neighborhood. The project was completed on budget and ahead of schedule.

Undergraduate Case Study

EDUCATION

Yale University, 2008 to 2012 **New Haven, CT**
Bachelor of Arts in Architecture
Coursework: Graphic Design, History of Art, Multivariable Calculus, Latin, Advanced Physics
GPA: 3.63

Newton South High School, 2004 to 2008 **Newton, MA**
Cumulative GPA: 3.95

RELEVANT EXPERIENCE

Waggoner & Ball Architects, 2011 **New Orleans, LA**
Architectural Intern

Developed and presented a strategy for reutilizing vacant properties damaged by Hurricane Katrina in St. Bernard Parish as part of a three-person team. Described urban planning, sustainability and design concepts with drawings, graphics and boards.

Independent Study Project: Life with the Vacant Lot, 2011 to present **New Haven, CT**
Designed and conducted a year-long research project investigating urban vacancy in New Orleans, with the guidance of Yale School of Architecture Professor Keller Easterling.

Community-Based Learning Project: The Hill Neighborhood, 2011 **New Haven, CT**
Produced a map exploring form-based code, with the New Haven Urban Design League.

ADDITIONAL EXPERIENCE

EVOLUTIONS After School Program, 2011 to present **New Haven, CT**
Architecture Mentor

Led eight New Haven high school students in creation of models demonstrating the effect of sea level rise on salt marshes. Part of exhibition at the Yale University Peabody Museum.

Yale Whitney Humanities Center, 2008 to present **New Haven, CT**
Research Assistant

Independently managed the image collection of Sterling Professor of the Humanities María Rosa Menocal. Collaborated with programmers and librarians to develop online resources.

The Princeton Review, 2009 to 2011 **Newton, MA**
SAT Instructor

Individually taught classroom courses and tutored students one-on-one. Responsible for grading exams, providing feedback and devising lectures in order to improve performance.

ACTIVITIES

Violin Studio, 2008 to present **New Haven, CT**
Studied under Yale School of Music Director of Chamber Music Wendy Sharp as one of eight students. Also in her undergraduate quartet, performing Beethoven, Shostakovich and Ravel.

Yale Symphony Orchestra, 2008 to 2010 **New Haven, CT**
First Violin

Berkeley College Orchestra, 2008 **New Haven, CT**
Co-concertmaster
Auditioned for position; led musical performances and sectional rehearsals.

The Lion's Roar, 2004 to 2008 **Newton, MA**
Managing Editor of Content
Oversaw writing and directed staff at monthly high school newspaper. Recipient of Superior Award for writing at the National Scholastic Press Association Convention in 2007.

AWARDS

Mellon Forum Senior Research Grant, 2012 **New Haven, CT**
For research in preparation for entering the 2012 Land Art Generator Initiative design competition; part of senior studio led by Yale School of Architecture Professor Steven Harris.

National Merit Scholarship Winner, 2008 **Newton, MA**

Tasteful and refined choice of fonts.

Effective use of second column to highlight skills and additional information

Effective language to describe professional experience.

Leadership highlighted by experiences outside of Architecture

<http://cargocollective.com>

Unit B1, 210 Park Street
New Haven, CT 06511

Ready to bring design and critical thinking to the creation of better architecture — for individuals, society and the environment — and to learn and collaborate in the process.

SOFTWARE

Microsoft Office, Adobe Creative Suite, AutoCAD, SketchUp, Rhinoceros, V-Ray, ArcGIS, 3ds Max

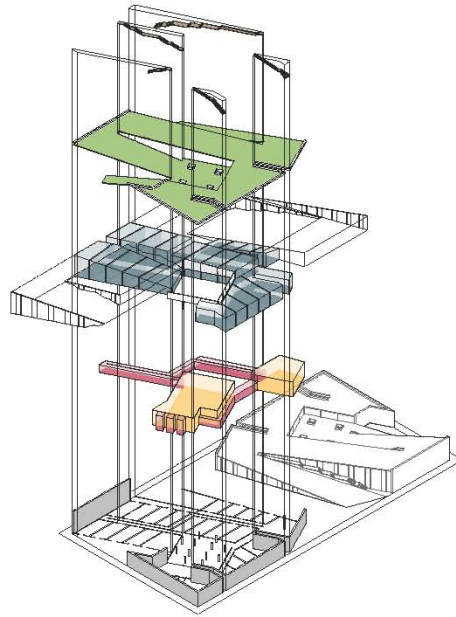

FABRICATION

Hand drafting, freehand drawing, model making, woodshop, laser cutter

LANGUAGE

Proficient Spanish
Spoken Mandarin Chinese

References available upon request.

HOUSING SUPERBLOCK

Junior Spring Studio, 2011

Keith Krumwiede and Joyce Hsiang, critics

A 48-unit residential complex on an unspecified city block where all units connect to an inhabitable roof surface that supports public open space above and encloses private spaces below.

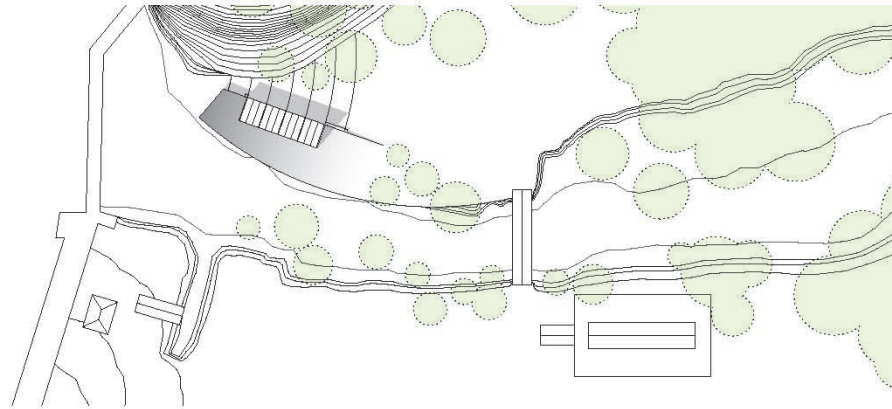

Large and legible drawings and images

Project choice self explanatory and clearly illustrated with plan, perspective, and model image.

Consistent graphics throughout all materials

Writing clear and concise.

ST. BERNARD VACANT LOT USE PLAN

Waggoner & Ball Architects, 2012

Aron Chang and Rami Diaz, team members

Comprehensive plan for reuse of vacant lots damaged by Hurricane Katrina in St. Bernard Parish, LA. Proposal dealt with issues of water management, tree cover and zoning, focusing on creating urban designs that would foster more sustainable and economically viable redevelopment of the community.

YALE A&A ANALYSIS

Analytic Model+Drawing Architecture, 2012

Emmanuel Petit and Victor Agran

Formal analysis of the Yale Art & Architecture Building by Paul Rudolph through models, drawing, and drafting. Explored architectural concepts of circulation, massing, tectonics and programs.

Large and legible drawings and images

Project choice self explanatory and clearly illustrated with plan, perspective, and model image.
