How to Enable Waiting Room on Zoom

Overview

The Waiting Room feature allows the host to control when a participant joins the meeting. As the meeting host, you can admit attendees one by one or hold all attendees in the waiting room and admit them all at once. You can send all participants to the waiting room when joining your meeting or only guests, participants who are not on your Zoom account or are not signed in.

Participants will see the following screen when joining a meeting with Waiting Room enabled:

Please wait, the meeting host will let you in soon.

You can also customize the waiting room screen with your own logo, title and description.
Note:

- If the Waiting Room option is enabled, **join before host** will not work for that meeting.
- Webinars do not support Waiting Room. Use a **webinar practice session** as an alternative.
