

# SCHOOL FOR COGNITIVE HEALTH

ALEXA GREENE

THE SCHOOL FOR COGNITIVE HEALTH ADDRESSES COMMON MUSCULATURE WEAKNESS WITHIN THE EYES THAT CAN CAUSE POST-CONCUSSION SYNDROME. EYE MUSCLE WEAKNESS IS TYPICALLY DAIGNOSED IN CHILDREN, AND CAN BE PREVENTATIVELY TREATED BY SPATIAL EYE FUNCTION EXERCISES, ELIMINATING POSSIBLE SYMPTOMS LATER IN LIFE. THE SCHOOL FOR COGNITIVE HEALTH INCORPORATES THESE EYE STRENGTHENING EXERCISES INTO THE BUILDING FABRIC, PASSIVELY HEALING STUDENTS AS THEY MOVE THROUGH THE SPACE.

### BASE IN

EXERCISING THE EYE MUSCLES THAT HOLD THE EYES IN THE FOCUSED POSITION

### BASE OUT

EXERCISING THE EYE MUSCLES THAT HOLD THE EYES IN THE RELAXED POSITION

### JUMP EXERCISE

EXERCISING THE EYE MUSCLES THAT MOVE EYE POSITION BETWEEN THE RELAXED AND FOCUSED STATES

4 OPTO-KINETICS

THE PRACTICE OF STRENGTHENING COMMUNICATION BETWEEN THE EYES, BRAIN AND THE BODY TO CREATE A UNITED UNDERSTANDING OF WHERE AN INDIVIDUAL IS IN SPACE
