

How Sponsorship Funds Are Used
Sponsorship support for the Bangkok Bulls goes far beyond traditional team expenses. Our mission is to create real, life-changing opportunities for players by providing resources that most developmental or exposure teams simply do not offer.

Funds will be strategically used to:

- 1. Provide Player Gear & Equipment**
Ensure athletes are fully equipped with basketball shoes, training gear, and uniforms so they can perform at their highest level without financial barriers
- 2. Cover Operational & Business Expenses**
Support essential team operations including gym rentals, staff, media production, league fees, and overall program sustainability.
- 3. Create Player Call-Up Opportunities**
Allocate resources to bring in additional talent when opportunities arise, giving more athletes a chance to showcase their skills in a professional setting
- 4. Provide Housing for Players**
Assist with accommodations in Bangkok, allowing players from different regions and countries to participate without the burden of securing housing on their own
- 5. Support Travel & Flight Costs**
Help cover international and domestic travel expenses for players committed to this opportunity, making it accessible for those serious about pursuing an overseas career

Why This Matters

Unlike most exposure teams, the Bangkok Bulls are building a true platform. This is not just for competition, but for access, visibility, and advancement. Your sponsorship directly impacts an athlete's ability to step into a professional environment, gain exposure, and pursue opportunities in the global basketball market.
