I spoke to your representative this morning regarding sponsorship/advertising opportunities with us here at The Bucks Backyard in Kyle, TX. Our demographic here for our music concert series includes couples between the ages of 25-55. We expect to bring upwards of 350,000 people to our venue this year. We also can offer exclusivity to your area of business. I have attached our sponsorship rate sheet for your review. You will notice we have a wide range of available space and can work within any budget.

Bucks Backyard is a 15-acre music venue. We offer a wide variety of music and entertainment. Our outdoor amphitheater will have between 1,500 and 5,000 people at each show booked. Our goal is to have 6-8 shows a month on our outdoor amphitheater alone. We also have an indoor stage for our smaller shows of about 1,000 people. Between the indoor and outdoor stages, we will have a full roster of shows Wednesday-Saturday all year long. We will also have occasional Sunday events.

In addition to the publicity provided by the people visiting our venue, we have a Strong Social Media presence through **Bucks Backyard**, **1836 Entertainment Group**, and the patrons that post non-stop when here. Our advertisement utilizes banners with multiple locations throughout the venue and we can custom tailor a package to fit your objectives. Please let me know when you are available to discuss in further detail.

The benefit of advertising with us is not only from the eyes and word of mouth of the patrons that come in, but the additional use of social media that patrons are posting on social media forums that will have your advertisement in view. We also keep our sponsors on our social media platforms as proud sponsors of Bucks Backyard & 1836 Entertainment Group and our concerts. We offer our sponsors the opportunity to come out and be a part of our events to interact with the patrons and hand out swag and represent your company.

All in all,...it just doesn't get any better than this.

In this with you and for you! Let's Win Together.
