

## Public Information

Planning Accreditation Board requires this information be posted for the M.S. Urban Planning program

### Student Achievement

**Program goals for student learning:**

1. Connect the study of the urban built environment with grounded analysis of socioeconomic and political conditions.
2. Confront and be prepared to break down structures and practices of oppression rooted in class inequality, racism, and sexism.
3. Learn to evaluate and shape efforts to develop and enhance cities and their communities in ways that foster equitable and sustainable living.
4. Foster a global outlook and active engagement with practice.

**Assessing student learning outcomes:** We use direct measures in our required Planning Studio course. Competencies assessed are based on the PAB’s 2017 standards for Planning Knowledge, Skills, and Values and Ethics (note: not all competencies are relevant to studio work so we have included those assessed). Complete definitions of these competencies can be found [here](#).

#### 2021-2022 Academic Year Student Learning Outcome Assessment Results

Competency	Assessment (average score)
<b>Planning Knowledge</b>	
Purpose and Meaning of Planning	2.51
Planning Theory	2.12
