LLM in Production: Use Cases

Prospectus

September 12, 2025

#LLMinProd

About the Conference

LLM in Production: Use Cases is a focused, one-day virtual event designed for technical leaders, developers, architects, and product managers who are building, deploying, and scaling large language models (LLMs) in production environments.

From observability to cost optimization, real-time inference to responsible AI — this event unpacks how LLMs are really working in production today, and what it takes to make them successful.

September 12, 2025

Online

1 Track

500+ Registrants

8+ Talks

Key Topics

Real-World LLM Deployment Case Studies

- LLM Observability and Monitoring

Security, Governance, and Compliance

- Performance & Cost Tradeoffs

- LLMOps and Infrastructure Optimization

Prompt Engineering in Production

- Fine-Tuning vs. RAG Approaches

Scaling Open-Source LLMs

Why Sponsor?

-  **Targeted Audience:** Reach 500+ senior-level engineers, decision-makers, and AI adopters.
-  **Global Exposure:** Our online format welcomes a worldwide audience, with long-tail reach via recordings and social media.
-  **Thought Leadership:** Position your brand as a trusted enabler of real-world AI/ML use.
-  **Lead Generation:** Access attendee lists and engagement metrics to connect with your ideal prospects.
-  **Extended Visibility:** All talks will be recorded and promoted year-round.

Sponsorship Packages

Sponsor 1500 USD

- Logo on the conference website
- Social media mentions (group)
