Who are we?

We are a tech community by Google Developers Group in Raipur, Chhattisgarh covering 1000+ tech minds across the state.

We are on a mission to strengthen the local tech community in Raipur and Chhattisgarh through various events, tech sessions, seminars, and other activities for Tech professionals.

We want to get all the tech career aspirants equal opportunities and exposure as people in metro cities.

5+ Events	1K+ Attendees	1K+ Members	1+ Years of Journey

Our Events & Initiatives

• Flutter Festival

Flutter Festival is a community-led event series where developers join and learn the fundamentals of Flutter.

• International Women's Day

As part of our International Women's Day celebrations, we invite women and allies to join us along with their communities to celebrate and encourage Women in Tech, and to make our community more diverse.

• IO Extended

In alignment with our mission, IO Extended will be an initiative to help graduates get better opportunities by nurturing and grooming them for 8-10 months onsite at Raipur for free and helping them get their first tech job.

Dec 16-18, 2022

Devfest Raipur

Google Developers Group conducts DevFest annually across the world to bring the technology closer to the developers.

This is the first time we are organizing DevFest in Raipur, Chhattisgarh as a three day developer conference to focus on multiple technologies through lightning talks, sessions, and workshops.

- **3** Days
- **4** Tracks
- **50+** Speakers
- **1K+** Attendees

- 50 Speaker from across the globe

- Session on upskilling and separate booths for networking

- Focused on learning, networking and growing

- Career Fair for students in collaboration with the GDSCs

Key Highlights

First of its kind
DevFest has been conducted across the globe for a long time. We are bringing a global opportunity to the state for the first time.

Career Fair
This event will be an opportunity for local businesses to support local tech talent and collaborate with them.

Hybrid Booths
Hybrid booths for connecting with the onsite attendees as well as the virtual attendees. Showcase your products and get interests right away about it.

Hybrid Event
Not only we are making it more feasible for you to attend the event, but we also have some really exciting bonuses for the virtual event attendees.

Global Network
We will have some of the best minds in the industry as our esteemed speakers. There cannot be a better opportunity in Raipur to connect and learn from such brilliant minds.

Tracks

Whether you develop mobile applications or you code web to build scalable web applications or you like analyzing and visualizing the data for finding some patterns. We have got it covered for you in 4 different tracks that would run parallelly in the DevFest Raipur 22.

- ML
- Flutter
- Android
- Web & Cloud

Types of Sessions

Maybe you need quick, tactical tips, or you like getting deep into different aspects of the technology you are learning through courses and long-form videos. We have two types of learning methods to accommodate your learning style:

1. Talk

Speaker Session- Length: 25-45 mins ⏰

2. Tutorials

Step-by-step Hands-on training- Length: 3-3.5 hrs ⏰
